URL	http://ceros-ski.herokuapp.com
Platform	Macintosh
Operating System	OS X 10.13.6
Browser	Chrome 53
Severity	Major
Assigned to	/
Priority	High

Description
After the Skier crashes into any obstacle the command to turn left crashes the app sometimes

Steps to reproduce
> move the Skier until it crashes into an obstacle
> press the left arrow button until the Skier moves

Expected result
The Skier appears on the left

Actual result
The application crashes with the screen is blank

Notes
